

Do What You Do Best And Outsource The Rest!

Who Are We?

Guberman Group is a full-service, multi-disciplinary provider of premium accounting and financial solutions.

Based in Tel Aviv, Israel, we have been operating for more than twenty years, providing meticulous, efficient, and reliable accounting solutions to leading customers within the country and abroad. Due to the outstanding professionalism of our staff, we rank among Israel's top four outsourced accounting firms.

Combining the talents and expertise of more than 90 employees, we provide prime services to multi-national companies, start-ups, public firms and companies in the high-tech, manufacturing and trade sectors.

Part Time CFO

With Guberman's part-time CFO services, we let you afford the savvy of senior and highly experienced financial executives as needed without having to pay for their services around the clock.

From annual to five-year budgets, ongoing consultations, participation in board meetings, revenue recognition issues, establishing company procedures or liaison with other financial professionals, Guberman is a highly cost-effective solution that offer the flexibility you need as your company develops.

Payroll Bureau

When payday comes around, you can rest assured that our boutique bureau will provide your organization with first-class, professional salary management for your most valuable resource - your employees.

Our Payroll Bureau will provide precision, composure and confidentiality in one of the most sensitive issues in any organization - payroll calculation.

Premium Tax Processing

As a well-established representative CPA firm, the Guberman Group's computer network is fully integrated with the intricate Israeli tax authorities' systems and personnel.

Our premium tax processing department is well acquainted with the relevant personnel at the IRS, National Insurance, and VAT authorities.

As well as providing professional and fast-track tax handling services in specialized domains, we save time and money clients might lose trying to interact with these authorities independently.

US and UK Accounting

In order to ensure complete, comprehensive financial solutions for our clients, the accounting division offers US and UK Accounting services for companies and start-ups operating in the United States and the United Kingdom.

This service provides ongoing, accurate management of the company's financial activity, conforming to the highest standards and to the regulations of the local tax authorities, which form the basis for all reporting requirements.

Accounting and Financial Reporting

Our services are provided by experienced accountants who specialize in different types of reporting, from the preparation of financial statements for public companies under review or audit, to preparing monthly or quarterly internal reports for high-tech companies and their boards of directors.

Guberman's accounting and financial department is fully coordinated with external auditing firms, including the 'Big 4'.

Our team has both knowledge and expertise to understand the intricacies of your specific business environment.

Bookkeeping

Regardless of the size or stage your company has reached, our bookkeeping department is lauded for its high quality, meticulousness, compliance with international standards and online updates.

Multilingual, fluctuating or multi-currency requirements?

We have the specialized staff dedicated to produce full and accurate financial statements in real time, whether it's dollar, Euro, pound or shekel.

Temporary Projects

Does your organization require a temporary replacement of your CFO, controller, or bookkeeper during LOA periods? Do you need reinforcement for your routine tasks while employees are on leave or working on special projects such as an M&A, IPO, or implementation of an ERP system?

While you may employ the most competent accountant around, there are times that you need to call on someone specifically experienced in a niche area.

If a particular field is not your forte, we'll assign a qualified, external professional, right on your premises.

Guberman Strategy

Whether you need business and financial planning for a start-up, or road maps for successful fundraising, we bring deep, functional expertise and known for our holistic perspective. The department also provides second opinion services which are essential in major crossroads and equip boards and senior managers with additional unhinged multidisciplinary point of view.

Administration

Guberman's unique administration department specializes in providing complementary services related to finance, process management and streamlining procedures.

Guberman Human Resources- Recruiting Services

We provide head hunting and recruiting services, discovering the best match for your financial-based vacancies and staffing-needs. From financial managers, accountants, financial administrators, bookkeepers and payroll clerks, our recruiters live and breathe the financial climate. As we deeply understand the needs of our clients we refer only the most suitable, talented, and motivated candidates.

What's In It For You?

At Guberman Group, we believe that if you concentrate on your core business and outsource the rest, you can accomplish a lot more.

We believe in helping you to succeed at all your tasks with no stress or overload without compromising on quality.
